PUC 2508 80 cm pole

The PUC 2508 is equipped with a multiple CIS® cable inlay system with which you can quickly and simply ensure that all cables are hidden. The pole is made of aluminium and, therefore, it can be easily cut at the required length. The Connect-it poles can be customized by the user. By inserting the plastic cover strips into the Connect-it pole or by replacing them by differently coloured strips, it can be customized to the house style of the customer. Multiple displays can easily be installed back-to-back, on top of each other or next to each other. Combine this pole with one of the Connect-it ceiling plates (PUC 1060/ 1070/ 1080/ 1090), Connect-it interface bar (PFB 3405/ 3407/ 3409/ 3411) and Connect-it interface display strips (PFS 3303/ 3304/ 3305/ 3306/ 3308/ 3311) for a complete ceiling solution.

Features

- Aluminium, easy to cut to length
- Max. load: (2x) 80 kg / (2x) 176 lbs
- Multiple display mounting
